Crush Club Wine Program

The Crush Club Wine Program will open your palate to new flavors and new wines, always of the utmost quality. Whether the wine is from a well-established winery or an up and coming star, the selections are sure to please even the most discriminating palate.

How It Works: Each month you will receive two premium wine selections that are personally researched and selected based on your club level and preferences. Wines are from many high quality and award winning wineries, and are not private label wines. Wines are available for pickup at Scardello on or about the 25th of the month or can be shipped to you (shipping charge not included in price). Membership is ongoing until you cancel and you may cancel at any time.

What Types of Wines Will I Receive: There are two Crush Club Levels - Premium Selections and Collector's Series:

Premium Selections ($50/month)

This is your first class ticket to the world's best wine regions! Enjoy wines from well-known and boutique wineries. Wines are selected for their high quality and depiction of a particular region. Typically these wines can be enjoyed now, but can often improve with limited bottle aging. I personally research and select a premium red and white wine and provide you with tasting notes and food pairing ideas.

Collector's Series ($100/month)

If you're building or maintaining a cellar and want to receive ultra-premium, age worthy wines, this is the wine club for you. This program offers you a smart way to add to your cellar. Each month I personally research and select two superior quality red wines for you to sample. These wines are highly rated and are chosen for flavor, structure, and aging potential.
